

Press release "FESPA 2015"

"New Solutions for the Fashion Business".

Together with Brother you will have **much more possibilities to create individual fashion**. During FESPA 2015 in Cologne we will show how to print on different textile material, i.e. **shoes**, and how to combine **different techniques like using metallic foil with DTG printing**. Moreover, you can see **embroidery and scan&cut** solutions for textile finishing. Brother Industrial GmbH will be demonstrating several steps of the digital garment printing process. Where else can you **visually see all important steps of the "full" digital garment printing process**? You will find many **experts from all around the world** to discuss with about your requirements for perfect garment printing at our **booth E20 in hall 8**.

The successful GT-3 Series garment printer together with **new options and platens** are the perfect combination to **produce high volumes** and/or **unique fashion garments**. **Increase your profitability** with more options and solutions for the garment decoration industry from the **number One supplier of direct to garment printers**:

- **Production and Reliability**
- **Quality and Service**
- **10 years' of competence and experience in DTG**
- **Sovereign colour reproduction - natural and realistic**

Meet **customers, dealers and specialists** for **graphics, software, textiles, accessories, printing technology, etc.** on one single booth. Find a **concentration of many** interesting people on our stand which will become a meeting point for a wide range of information on digital garment printing. **We are ready to show you the whole digital garment printing process without hiding anything! A promise is a promise.**

Brother is a Japanese company whose profile comprises a diversity of electronic, industrial as well as domestic appliances and is one of the world's leaders in the Production of **Industrial Sewing Machines, Printers and Multi-Functions-Centre machines**. The industrial sewing machine tradition looks back **upon 100 years of experience** and **10 years professional experience in textile printing**. Brother's headquarters for industrial products like sewing machines and the garment printer in Europe, Africa and the Middle East are located in Emmerich - Germany consisting of **service & sales specialists as well as warehouse logistics staff**.

Environment!!!

According to the overall **Brother Group Philosophy** we will continue to develop and improve our environmental performance - in the interest and welfare of the general public. Therefore we continue to be on the safe side in case of **RoHS II**, any **EU directive**, **ISO 14001**, our **Brother's own 5R concept** (Reuse, Reform, Recycle, Refuse, Reduce) and **ÖkoTex certified inks/consumables** to grant high quality standards.
